

Hello Tomek and Beate,

You did a very beautiful job producing this film. Congratulations! Thank you also for your efforts and dedication. I love the music in it and how it is applied to the flow of the story. I have been enjoying it very much.

I had provided these images to Ursula's daughter, Helen Forgasz, January 2015. I noticed in the credits, that it looks like she did not credit the source where she got it. Maybe she forgot. If you obtained these from Helen Forgasz, then please would you add me to the film credits?
